

Protection of Waqf properties is Our Religious Obligation-

AND YOU need to be a part of this movement

There are many properties in India which actually belong to Imam & Almighty & Our forefathers had made waqfs for it. However due to community negligence & corrupt persons (combination of mutawalli, wakf officer etc) most of the properties have been looted & not used for purposes intended.

Surveys show that Muslims need not depend on anyone if these waqf properties are properly managed. These properties estimated at 60, 00,000 acres are the biggest after properties of Railways and Defense. Its income would contribute to the community's development & welfare ie. Education, medical facilities & Tabligh/ Azadari etc

Proper protection & management of waqf properties and their beneficial use according to will of waqf founders is OUR collective responsibility. Most people consider this as a lost cause & do nothing /keep silent saying. "Very difficult, big personalities are involved whom we cannot fight, no results will come ,No time ,No legal knowledge" . This neglect encourages those looting these properties even further.

The government has made new wakf rules /courts for this, but generally people are unaware & their implementation is lacking due to our neglect. There are vested interests & attitude of government machinery, administrative officers is also generally negative .SO...WE can save the waqf properties & get the stolen properties back by raising awareness in Public ,taking up the right issues in proper forums /public & finding documents & legally filing appropriate cases.
